

WHAT IS GOING ON AT STAR LIGHT LEARNING ACADEMY?

Dear Families and Friends –

While you and your loved ones are safe at home, we have been hard at work. School improvement projects have included everything from painting walls inside our beloved facility to planting spring gardens in the parking lot - all while practicing appropriate social distancing! You and your child(ren) are sure to love all these exciting changes to the school.

In addition to the physical advancements to our school grounds, we have also been working hard on implementing some live interactions on social media to help keep your families connected in a fun, interactive and academic way. These live interactions can be paired with the at-home curriculum that our office staff is creating to keep your young learner(s) engaged and challenged. So, keep an eye on your email inboxes for more information on our in-home lesson plans which include crafts, stories and activities that the children can do with household items! Lessons, activities and newsletters will be sent home weekly.

We are also raffling an AMAZING stay-at-home basket for our families. For a chance to win this super-fun basket, like our Facebook page, write a positive review and share us on your timeline! Our basket winner will be randomly selected on April 15th and the basket will be delivered directly to the winner's home!

We miss you all so much and appreciate your involvement more than you know! Please everyone, stay safe. We hope to see you all soon.

Love,

The Staff at Star Light Learning Academy
